

Partitioning

At Fuselek, we have access to a wide range of partitioning systems. Therefore, you can be sure that we will have something to meet your Company's particular needs.

Office Fit Out & Refurbishment

We offer a comprehensive range of office interior services, comprising office design, fit outs, refurbishment and relocation schemes – all designed to make your work environment the best that it can be for you and your employees.

Dilapidations

At Fuselek we specialise in 'end of lease' refurbishment of office and industrial premises.

Space Planning and Design

Good workspace is key to improving the overall productivity of your office. We can work with you to design your new workspace so that it becomes an enjoyable, practical and efficient place to work.

Industrial Unit Fit Out & Refurbishment

Our experience, skill-set and knowledge of all building types, including listed buildings, modern industrial and retail units, as well as multi-level commercial buildings, means that our team are able to provide a professional service for any requirement.

Mezzanine Floors

Mezzanine floors are extremely useful in increasing your office and storage capacity within your current building. We have successfully achieved excellent results for a number of clients in this area.

Changing Rooms and Toilet Facilities

Fuselek can design, plan and provide a solution that meets your Company's needs and budget. Whether you require a full re-design or simply a re-decoration of your existing toilet/washrooms, we will be able to help.

Flooring

Fuselek have access to a massive selection of flooring products available from some of the highest quality manufacturers for a variety of applications to add those finishing touches to your workplace.

Electrical & Data Services

Fuselek provides a wide range of electrical services to complement any fit out or refurbishment project. For example, fire alarms, intruder alarms, CCTV and door entry systems.

Heating, Air Conditioning & Ventilation Services

In many workplaces, the need for good air conditioning and control has now become essential, rather than a luxury, for a comfortable working environment. Fuselek can design and provide a bespoke solution that meets any organisation's requirements.
